“Solar Atmospheres of Western PA supports several local ASM chapters every year as a role of “Sustaining Member”. Why do we do this? We do this because it is at these chapter meetings where we attain years of knowledge, identify future employees, establish friendships and relationships with customers and competitors alike that could never be achieved over the internet.”

Robert Hill

President

Solar Atmospheres

of Western Pennsylvania

ASM connects you locally, nationally, and worldwide

We are an internationally recognized professional society for materials science engineers, and provide technical knowledge, education, social interaction, career advancement opportunities, networking, teambuilding and professional development through our network of 100+ professional ASM Chapters. These “local chapters” are connections to the materials science engineers, researchers, buyers, and decision makers worldwide.

Local Chapter Benefits:

- Networking with local vendors, manufacturers and academics
- Listings on ASM Chapter letterhead, websites, and meeting announcements
- Technical presentations at ASM Chapter meetings
- Student Outreach Sponsorship
- Advertising in Chapter Buyers Guide/Yearbook
- Local awards/recognition
- Participation in Chapter Sustaining Member events

ASM Member Benefits:

- Access to thousands of technical articles 24/7
- The award-winning *Advanced Materials and Processes*® magazine
- Free access to online journals
- Professional resources and opportunities via the ASM Member Career Center
- Free technical article downloads through your ASM Points
- Connection to online forums
- Contact information in the ASM Member Directory
- Significant discounts on products including books, conferences, training seminars and online database subscriptions
- Special offers such as low credit card rates, discounts on rental cars, competitive rates on comprehensive health insurance policies, and savings on home and auto insurance

“We at Buehler take pride in our support of ASM International as a Sustaining Member. We have contributed to ASM in a Sustaining Member role for well over 40 years, and today Buehler is a Sustaining Member of 6 chapters in North America. This is one of the ways we give back to our customers and the industry which has supported us for over 75 years.”

Richard Blackwell

An ASM Sustaining Membership provides all the value of an individual membership plus...

Networking

Meet and interact with industry experts, peers, suppliers, customers and prospects to share information, discuss challenges, solve technical problems and form beneficial professional relationships and lasting friendships.

Visibility

Feature your company name on letterhead, newsletters, newsletters, websites, directories and meeting announcements. Plus, get honored for being a Sustaining Member once a year at a special Chapter meeting.

Sponsorship

Get the first opportunities to sponsor and receive discounts on special educational programs and professional and social events like golf outings and local get-togethers.

Advertising

Receive discounted rate advertising for your company in Chapter newsletters, websites and directories. Sometimes, it's even free!

Singapore Chapter

Long Island Chapter

Montreal Chapter

Professional Development

Be part of the team with your participation as Chapter officers serve on the board. You and your staff will learn organizational skills, how to lead and delegate, how to manage a budget and how to become public speakers.

Community Outreach

Mentor future industry professionals and identify potential employees. Encourage the next generation of materials specialists through Chapter programs for high school and college students. Many Chapters offer scholarships, sponsorship of annual Student Nights, organized high school visits, and the opportunity to serve as advisors for local colleges and universities.

Influence

Take an active role in guiding the direction of local Chapters through technical programming and education to student outreach and social events. Volunteerism and support of local Chapters leads to increased visibility and activity at the national and international level.

"I choose to be a Sustaining Member of the ASM Detroit Chapter because of the extra visibility in the materials community that this membership provides to me and my company. For a modest increase to the cost of my individual membership, my employer gets advertising and publicity opportunities at an incredible bargain price. In addition, the extra membership dues help to fund a Sustaining Members Meritorious Scholarship. This allows us to contribute to educating the next generation of materials engineers. When you take all of the above into consideration, it simply makes sense for me to be a Sustaining Member of the Detroit Chapter of ASM."

Kathy L. Hayrynen, PhD, FASM
Technical Director
Applied Process Inc. –
Technologies Division

With a current roster of 110 professional Chapters worldwide, ASM presents one of the most extensive networking opportunities available. These Chapters serve as extensions or mini-societies for their local community, developing opportunities for professional networking, social interaction, education, student outreach, and personal development both within the society's focus and also through leadership and teamwork opportunities. Visit the ASM website to learn more by exploring individual ASM Chapter websites.

Chapter Sustaining Membership

“RJ Lee Group’s Sustaining Membership is borne of our company’s consistent philosophy of being active corporate citizens to enrich our local and technical communities. We believe that ASM International shares our commitment to technical excellence as well as our excitement about the technologies and innovations made possible by advances in materials. We value the visibility of our brand that our Sustaining Membership has provided within the field of materials characterization and scientific consulting, both locally and nationally. RJ Lee Group looks forward to continually engaging the Society and our Chapter to identify new opportunities and collaborative endeavors that will be mutually beneficial to Sustaining Member Companies, Chapters, and the Society as a whole.”

Matthew J. Perricone, Ph.D.
Consulting Scientist
RJ Lee Group
